## Project

### 1. Equipment Rental Portal (March - April 2023)

- Users of the equipment rental platform may rent a product by using the test Razorpay mode. This application offers user and administrator authentication.
- <https://nimble-babka-3e85ad.netlify.app>

### 2. Mobile Shop App (April - May 2023)

- In this app, we need to implement authentication and perform CRUD operations.
- <https://fanciful-hummingbird-57ab9e.netlify.app>

### 3. Tournament app ( May - June 2023)

- The tournament app can be used to create a tournament and add participants to it. Once the participants have been added, you can select a winner based on the rules of the tournament.
- <https://tournament-game.netlify.app>

### 4. Zoom Meeting Clone (July - August 2023)

- The Zoom Meeting app allows you to create a video call, chat, and screen share with login credentials
- <https://main--unrivaled-froyo-c6cf87.netlify.app>

## Education

### B.E (ECE-Electronics and Communication Engineering)

Narasu's Sarathy Institute of Technology

08/2016-09/2020

7.01cgpa

### Higher Secondary School Certificate

Government Boys Higher Secondary School

06/2015-05/2016

62.3%

### Secondary School Leaving Certificate

Government Boys Higher Secondary School

06/2013-05/2014

83.8%

## Skills

HTML/CSS - Expert

JavaScript - Expert

Bootstrap - Experienced

React.js - Expert

Node.js - Experienced

Express.js - Experienced

MySQL - Experienced

MongoDB - Experienced

Git/GitHub - Experienced

## Summary

- Good understanding of the Document Object Model (DOM) and its functions.
- Hand on using React Hooks to use state and lifecycle methods inside functional component.
- React Router to control the various React component path locations.
- Package management was handled by NPM while source control was handled by Git.
- Used Postman to test the API and used a version control tool.
- Making websites with HTML/HTML5, CSS/CSS3, JavaScript, and React Js + Redux
- Built a single-page web application with React.js, Redux, Express, Node.js, a REST API, and MongoDB.

## Experience

2021-2022: Combat Vehicles Research and Development Establishment (CVRDE)-DRDO, Avadi, Chennai.

Graduate Apprentice Trainee

## Certification

Full Stack Development (MERN), Guvi Geek Network, IIT Madras
